

## Datasheet

### ACCESSORIES/ EM Series - Resettable EDR

#### Product description

The range of emergency door releases (EDR's) from CDVI provide a physical method of unlocking an electronic lock in the event of an emergency.

They are generally fitted where there is no manual method to permanently release the fail safe locks, to remove the power when the EDR is activated.

The EM Series are resettable EDRs. Pressing on the front will cause the plate to drop, operating the micro switch. The plate will remain dropped until resetting by means of a key. An optional protective cover is available ([MX-03](#)).

MX-03

#### Key features

- Emergency unlock
- Double-pole ([EM201](#)), Triple-pole ([EM301](#))
- Resettable version
- UK back-box format
- For internal use
