

WIPTEST

IP Camera Tester

WIPTEST

Key Features

- Simple Device to view IP Cameras on Apple / Android Devices
- Rechargeable Lithium Battery (1800 mAh)
- Test button to show Battery Capacity Status
- Free Android / Apple App with QR Code (To allow simple download)
- USB Output to allow charging of iPhones / Android Devices DC5V 1A
- Compatible with Genie IP and Wish IP Cameras
- ONVIF Compatible (Manufacturer / Model Dependent)
- LED indication showing IP Camera Connection Status

How It Works

The whole system consists of the WIPTEST, IP Camera and Mobile App. Connect the IP Camera to the WIPTEST via the RJ45 connection and provide a separate power supply to the camera. The images will now appear on your mobile phone or tablet.
