

Walk Through Metal Detector with Fever Detection

ZK-D3180S 18 Zones Standard

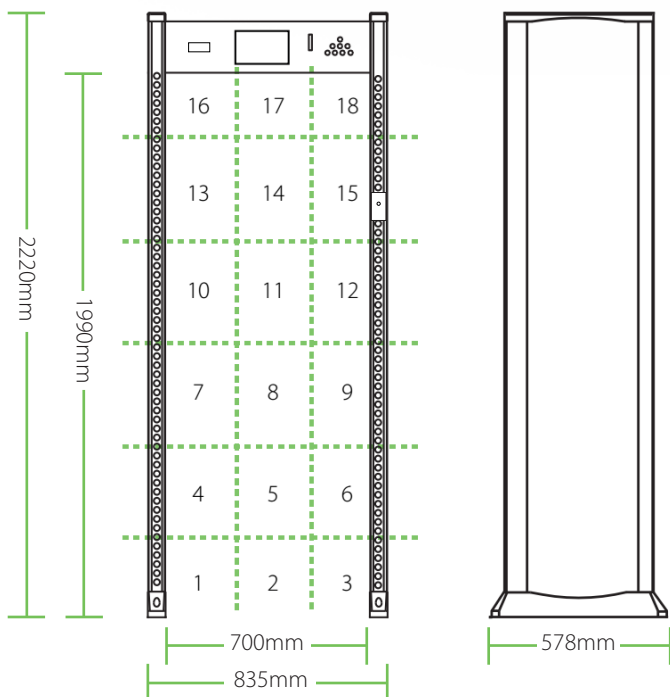

The 2019–20 coronavirus outbreak is an ongoing public health emergency of international concern involving coronavirus disease. In this background, ZKTeco is devoted to help social institution operating regularly.

ZK-D3180S is a walk through metal detector with fever detection. Passenger puts his brow or wrist 150mm away from temperature sensor. If the temperature detected is over 37.3°C, ZK-D3180S will alarm to notice guards. This product can greatly boost the public hygiene security.

Specifications

Power supply	AC100 V~240V
Working temperature	-20°C ~+50°C
Working frequency	4KHz~8KHz
Standard external size	2220mm(H)X835mm(W)X578mm(D)
Standard internal size	1990mm(H)X700mm(W)X578mm(D)
Package Dimensions	2310mm(H)X350mm(W)X665mm(D)
Gross weight	65kg
Temperature sensor type	IR temperature sensor
Temperature measurement time	≤1s
Temperature measurement point	Brow or wrist
Best temperature measurement distance	150mm
Height of temperature sensor	1500mm(customizable)
Tolerance of temperature measurement	±0.5°C
Measuring range	30°C - 45°C
Interval between two temperature measurement	2s
