

VFS132WHDA

32" FULL HD, MULTI-FORMAT INPUT MONITOR

KEY FEATURES

32" industrial LED
back lit panel

Supports CVBS / TVI / AHD

HDMI / BNC / VGA / S-Video

3000:1 contrast ratio

Overscan / underscan option

200x100 Vesa mount

Desk stand supplied

Green energy saving mode

The 32" VFS132WHDA monitor produces high resolution, high contrast images and alongside the standard HDMI and VGA inputs, it also supports the latest TVI and AHD hi definition coax video formats.

A passive loop through allows the monitor to be used for TVI and AHD 300m away with no loss in image quality, making it ideal for an entrance monitor displaying a local camera image which is then transmitted back to a DVR for recording.

The 32" industrial panel is designed for continual 24/7 usage, and also benefits from the addition of an Energy Saving Mode, to reduce the running costs.

A fast response 6.5mS reduces blur on movement and extremely high contrast (3000:1) guarantees very sharp images.

An intuitive multilingual menu system including English, French, German, Spanish, Italian, Dutch and Portuguese, makes the monitors very simple to set-up from the supplied IR remote control. With the addition of Front Panel Key Locking, this ensures that unwanted adjustment of monitor settings is not possible.

The monitor is supplied with a desk stand and combined with the 200 x 100 vesa mount, allows the monitor to be mounted anywhere.
