H265 2MP QUAD STREAMING FIXED BULLET WITH DYNAMIC "HI-STREAM"

VK2

The small unobtrusive design of the VK2L-2MPBIR36 2MP IP66 bullet camera hides an impressive specification and feature set, including its innovative "Hi-Stream" Region of Interest (RoI) bandwidth reducing function. Using this function allows the camera to continually analyse the scene, adding more compression to areas of low interest with no motion while applying lower levels of compression to areas where motion is present, so showing higher definition in these areas. This means that lower bandwidth is required for transmission and less storage is required at the NVR.

The 2MP resolution sensors produce incredibly detailed images, this combined with IR illumination and DWDR, ensures that the VK2L-2MPBIR36 bullet camera will produce excellent quality images both night and day.

The VK2L-2MPBIR36 is ideal for use with the Vista Viper range of NVRs. ONVIF compliance ensures it can be used on multiple manufacturers' recording platforms.

Key Features:

2MP resolution

Gives highly detailed recorded images

H265 video format

Greatly reduces the bandwidth and storage requirements of the recording solution

Hi-Stream RoI

Reduces bandwidth and storage requirements by adding greater compression to areas with no motion

Wide angle lens

Allows a single camera to view a large area

IR illumination

15 IR LEDs give up to 30m illumination
