Access Control / AC: Readers

Product Code

F03610

MEMOKEY CITY CLASSIC READER

Reference	EAN
3610	8424299036106

Description.

Description

Telephone type keypad that lets you open the door when a previously programmed 6 digit code is entered.
Stand-alone Access Control System. For installations where a simple access control is required, with no incidents record, to complement the audio/video door entry system and enable access to the building for residents, for example: offices, small businesses, garages.
Colour aluminium

CityLine Classic is the "continuous profile" outdoor panel line for buildings.

The PANELS are manufactured in anodized aluminium, highly resistant to rough weather and climate changes.

The panel design stands out for its curved-convex profile. A cellular rubber airtight seal included assures a perfect panel-to-wall fit to prevent water filtrations.

It is possible to combine two or more panels, as long as they are from the same series. For a perfect fit, a set of separators should be used for every two panels installed between their flush mounted boxes.

Technical Details

Operating temperature: -10 to 60 ºC

Up to 100 user codes

- Code length 4 to 6 digits.

- Electric lock release activation by Relay2 A (NA,NC). Programmable 1 to 99 sec. or bistable.

- Exit button input.

- Free access button (trades) input.

- Open Collector auxiliary output (150 mA max) to indicate sabotage attempt or door

open/forced.

- Confirmation by keypad pulsation tone and acceptance or rejection of the code entered.

- Programming from the keypad by master code.

- Power supply 12 Vac / 12 Vdc

- Consumption: 6 mA (standby), 60 mA (active).

- Protection IPK5409
